

# SKYTEAM IN THE AMERICAS

Since its formation in 2000, SkyTeam has maintained a strong presence in North and Central America thanks to founding members Delta Air Lines and Aeroméxico. SkyTeam welcomed its first South American member, Aerolíneas Argentinas, in August 2012, closing a gap in its network and opening up the Southern Hemisphere. Customers benefit from seamless travel to the Americas from every continent around the world. SkyTeam's network includes direct flights between Mexico and Asia, as well as nonstop flights from Argentina and the U.S. to Australia. With three leading global airlines from North, Central and South America, SkyTeam offers a comprehensive network of 434 destinations throughout the Americas.
